

The Invicta S1 sports car is designed to be two cars in one – a luxurious Grand Tourer and a no-compromise sports car with the potential to become a class-winning GT racing car. For the S1 to achieve these often conflicting goals, The Invicta Car Company adopted several innovative approaches in both design and construction phases.

Specification

Design and Construction

The Invicta S1 is the worlds first one-piece carbon fibre body to increase rigidity and minimise weight.

- Tubular steel spaceframe chassis and roll cage
- Front mounted engine driving the rear wheels
- 50/50 weight distribution
- Two-seats or 4 seats (2+2) coupe
- Available in Right or Left Hand Drive
- Hand built in Chippenham, Wiltshire, UK

Suspension

- Double steel wishbones, with coil springs and dampers fully adjustable for ride height, bump and rebound
- Anti-roll bar

Braking

- Front 350mm AP Racing ventilated & cross-drilled discs
- Rear 340mm AP Racing ventilated & cross-drilled discs
- AP Racing 6-pot (front) 4-pot (rear) calipers

Wheels and Tyres

- Front 19 x 8.5 with 255/35 ZR19 tyres
- Rear 19 x 9.5 with 275/35 ZR19 tyres

Driveline

- Tremec 5 or 6 speed manual gear box
- 4 Speed automatic gear box option
- BTR Hydratak limited-slip differential
